STAMP: EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Reasons for Allowance

Claims 1-3, 5, 7-14 and 25-36 are allowed.

This is examiner's statement of reasons for allowance.

The instant invention recites a method for generating an electronic version of a document, the method comprising:

receiving a plurality of digital, electronic images of the document;

generating a corrected image from each received image;

deriving one or more motion parameters for each pair of consecutive, corrected images, the motion parameters indicating the relative motion between the consecutive, corrected images, the motion parameters are derived by minimizing the sum of squares differences between each pair of consecutive images;

aligning each image relative to the previous images based on the derived motion parameters; and

blending each image into the previous images so as to produce the electronic version of the document.

wherein the sum of squares differences is substantially given by the following equation:

$$E = \sum_{i,j} e^2(i, j)$$

wherein $e(i, j) = I(i, j) - I'(i', j')$ wherein (i, j) and (i', j') are corresponding pixel locations in a previous image and a current image, respectfully

The features identified, in combination with other claim limitations, are neither suggested nor discussed by the prior art of record.

Art Unit: 2627

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
